

Polar Resource Book: *Polar Science and Global Climate*

The editors and authors of the Polar Resource Book are interested in your feedback on the five activities that we have chosen from *Polar Science and Global Climate*. We have prepared a set of five questions that you can answer for any of the resources and that will help us to respond to the specific requirements of our future readers. Thank you for completing our short survey. Please send your answers to ipyprb@gmail.com.

Resource(s) used:

Questions:

- 1. Did you find project descriptions and teaching resources a useful education and outreach tool and if yes, how?

.....
.....
.....

- 2. Were the descriptions/instructions easy or difficult to follow? If difficult, why?

.....
.....
.....

- 3. Were there any key features missing from the resource(s) you used? (e.g. specific material that you needed but that was not listed, an aspect of an initiative that would have been vital for putting it to practice etc.) If yes, what? *Please, list separately for each resource.*

.....
.....
.....

- 4. What was the best feature from the resource(s) you used? *Please, list separately for each resource.*

.....
.....

- 5. Do you have any other input regarding *Polar Science and Global Climate* and its contents?

.....
.....
.....
