

General Editor: **Bettina Kaiser**

Polar Science and Global Climate: An International Resource for Education & Outreach

The Polar Resource Book is a product of the International Polar Year 2007-2008 which is sponsored by the ICSU and WMO

Polar Science and Global Climate:
An International Resource for
Education & Outreach

We work with leading authors to develop the strongest educational materials bringing cutting-edge thinking and best learning practice to a global market.

Under a range of well-known imprints, including Financial Times/Prentice Hall, Addison Wesley and Longman, we craft high quality print and electronic publications which help readers to understand and apply their content, whether studying or at work.

Pearson Custom Publishing enables our customers to access a wide and expanding range of market-leading content from world-renowned authors and develop their own tailor-made book. You choose the content that meets your needs and Pearson Custom Publishing produces a high-quality printed book.

To find out more about custom publishing, visit www.pearsoncustom.co.uk

The editor of the Polar Resource Book and the director of the International Polar Year Programme Office would like to thank our numerous enthusiastic contributors and supporters from around the world.
